Nominations for Municipal Councils and School Boards close in two days!

Two days and counting down, to the close of nominations for the Municipal elections taking place on October 22. Some new faces, some old faces and some yet to declare but no matter what, the race is on and it is important for all of us to be involved in this process and the upcoming election. The people that we elect, will set the tone for each Municipality and School Board in our District, for the next four years.

After the close of nominations this Friday, we will have three months to sift through the platforms of each candidate and choose who we see fit to represent us and our concerns that are important to each of us. It is tremendously important that if there are issues that individuals wish to see addressed, that they communicate with the candidates that have or will put their names forward, to get their perspective on what you feel is important. If we do not ask, we will not get an answer, nor will these candidates know about your issues or concerns.

The North Bay & District Chamber of Commerce will be conducting a survey of its members, soon after the nomination period is completed. We will be asking our members about their concerns or issues and will be presenting these items to each candidate for their input on how they will address them. Once completed your Chamber will post the answers provided by the candidates so that our members and the

general public will learn more about the candidates and the issues that the business community will bring forward.

As well, The North Bay & District Chamber of Commerce will be involved in various events around the district, in the months leading up to the election. The more information that we can provide to our members and the public, the better. There are many issues that are of concern for the business community and we are hopeful that the candidates will hear our questions/concerns and respond with meaningful responses. Campaign promises, along with the candidate's vision of what issues their municipalities are facing, will shape the visions of the Boards and Municipal Councils throughout the next four years.

To all of those who have put their names forward for the ballot on October 22 and for those that will before the close of nominations, good luck and thank you for taking the interest in your community. It is not an easy decision to make when running for office, but it can and will, shape the future of all our communities. The Chamber looks forward to working with the candidates and eventually the successful individuals in the future.

Peter Chirico is the President & CEO of the North Bay & District Chamber of Commerce.

ACTIVE TRANSPORTATION NORTH BAY Survey

The City of North Bay is undertaking an integrated Active Transportation Master Plan (ATMP). The ATMP will provide the necessary framework for future planning, upgrading, development, and expansion of the City's active transportation systems. The City recognizes the growing need to expand its active transportation systems beyond the normal active and passive-based recreation focused trail systems, to an ATMP that promotes, encourages, and increases daily commuter non-motorized transportation travel throughout the City. Please **participate in our survey** to share your thoughts on what makes a *community-driven, future-focused* Active Transportation Master Plan.

The North Bay & District Chamber of Commerce has joined forces with the North Bay Foodbank by engaging our membership in the support of a major change effort underway in North Bay. We are sending out a **Chamber Challenge** and calling on you to support the North Bay Foodbank's resilience project. Support can be straightforward, by engaging in the following ways:

1. **Donation Bin** - Engage your organization to donate periodically by bringing in just one extra food item at lunch. You can support this effort by accepting a dedicated donation bin from the Foodbank and promote filling the bin using "[dress down Fridays](#)" in exchange for a food item or many other creative methods to align and engage the team at your workplace.
2. **"Just 1" Habit** - Promoting the game-changing idea that a social habit of donating just one of the "[foods of the month](#)" each time we shop for food, will supply enough food to feed those most in need.
3. **Community Capital** - Choose one of the [capital packages](#): Community Supporter, Community Partner or Community Leader and contribute a reoccurring amount or one time support to the North Bay Foodbank and reap the [recognition benefits](#) of their new reach via a redesigned website and enhanced social reach.

As a member that invests in this project's success, you will reap a return on investment that is unmatched – positive local community impact. The North Bay Foodbank is piloting many new concepts to promote adopting individual and corporate habits that are intended to become broader norms that have the potential to end food insecurity beyond just our community.
