

## Asbestos & Hazardous Building Materials Update

**NOVEMBER 22<sup>nd</sup>, 2019**

**8:30 AM - 10:30 AM,**

**Course Type:** Complimentary Breakfast Seminar

**Course Length:** 2 hrs

**Location:** Best Western Hotel & Conference Centre  
700 Lakeshore Drive, North Bay, ON

### Seminar Overview

The Ministry of Labour (MOL) places specific obligations on employers and building owners regarding the management of asbestos in buildings. Attend this session to find out about the measures and options for managing asbestos and minimizing the risk to employees and building occupants.

This session is also designed to help building owners, property managers, contractors, and consultants better understand their regulatory requirements and the potential impacts on their day to day operations, maintenance, and construction projects. This session will provide insight on appropriate assessment requirements, notifications and project planning techniques, to avoid costly project delays and financial impacts from unexpected discoveries, and Ontario regulatory "stop work" orders and fines.

### Seminar Outline

- Identification of asbestos in the workplace.
- Health hazards related to asbestos exposure.
- Safe work practices around asbestos.
- Key elements of an effective Asbestos Management Program.
- Identify the responsibilities set under the Provincial regulation.
- How these regulations impact your business, project timing and bottom line

### Who Should Attend?

- Building Owners
- Facility & Property Managers
- Architects
- Real Estate Professionals
- Developers
- Health and Safety Professionals
- Contractors
